Arizona Department of Mines and Mineral Resources Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

MANNA FROM HEAVEN

Maricopa County
New River District

Section 6, T6N, R3E

KAP WR 2/8/80: Dean Milton Schlarbaum, also known as S. Milt Dean or Milt Dean, requested a visit to his silver property in Cave Creek District; his gold property in Vulture District; and a copper prospect he has not yet staked near Lake Havasu City (Two claims in Vulture District: Crown Queen and Prince Royal. Cave Creek District: Manna From Heaven). Copies showing location of the claims were provided.

Mr. Leth then took us to his Daisy copper-gold mine on Daisy Mtn. about 3 miles south of New River. Here at least two roughly parallel veins are traceable by old diggins several hundred feet. Neither of the veins exceeds 16" in width and average about 4". From the wider portions a few (2 or 3) carloads have been shipped a number of years ago. GW WR 12/17/73.
