Arizona Department of Mines and Mineral Resources Mining Collection

ACCESS STATEMENT

These digitized collections are accessible for purposes of education and research. We have indicated what we know about copyright and rights of privacy, publicity, or trademark. Due to the nature of archival collections, we are not always able to identify this information. We are eager to hear from any rights owners, so that we may obtain accurate information. Upon request, we will remove material from public view while we address a rights issue.

CONSTRAINTS STATEMENT

The Arizona Geological Survey does not claim to control all rights for all materials in its collection. These rights include, but are not limited to: copyright, privacy rights, and cultural protection rights. The User hereby assumes all responsibility for obtaining any rights to use the material in excess of "fair use."

The Survey makes no intellectual property claims to the products created by individual authors in the manuscript collections, except when the author deeded those rights to the Survey or when those authors were employed by the State of Arizona and created intellectual products as a function of their official duties. The Survey does maintain property rights to the physical and digital representations of the works.

QUALITY STATEMENT

The Arizona Geological Survey is not responsible for the accuracy of the records, information, or opinions that may be contained in the files. The Survey collects, catalogs, and archives data on mineral properties regardless of its views of the veracity or accuracy of those data.

CHERRY KING

Au, Ag

Yavapai 13 - T 14-N, R 3 E

A. R. Van Wyke, 20 Hill St., E. Providence, R.I.

'40

21. Description: Topography & Geography
Rugged mountain country
Jerome Range of Mountains (?)

22. Mine Workings: Amt. & Condition
3 shafts - 1 caved
2 open
water level 60 ft. No. 1 shaft depth 60 ft.
No. 2 shaft 75 ft.
No. 3 shaft 50 ft.
All shafts inclined.

(over)

23. Geology & Mineralization The ore is oxide to 60 ft. sulphide starts from there, vein a true fissure, Hanging wall, porphyry. Foot wall, diorite. Vein quartz. Surface ore, oxide and sulphide.
24. Ore: Positive & Probable, Ore Dumps, Tailings At a depth of 60 ft. in shaft No. 1 ledge material 10 ft. Shaft no. 2 ledge 4 to 6 ft. Shaft No. 3 at depth of 40 ft., ledge 4 ft. Assays of ore in shaft No. 1 from \$8 to \$150. The \$150 was a picked sample of sulphide at a depth of 60 ft.
- 24-A Vein Width, Length, Value, etc. Ore runs at a depth of 60 ft. to my best knowledge and from wall to wall 4 to 10 ft.
25. Mine, Mill Equipment & Flow Sheet
26. Road Conditions, Route It is 1 mile north of state road. Can be reached in the car. Turn off highway at Cherry Wash which is near the Kate Allen Orchard, travel 1/2 mile north to end of fence, 1/4 easterly then northerly to the mine as far as road goes which is where property is located. Verne Olney, Box 290, Prescott, Ariz. will give further direction to property.
27. Water Supply Sufficient water can be developed at mine for mill operation and domestic water is available.
28. Brief History Whatever development work that was done I did in a small way - not having sufficient funds - I leased it to party and they did work until funds depleted.
29. Special Problems, Reports Filed The report made by Frank Jeroux, Assayer and mining engineer of Mayer, Arizona states the property is worthy of development. That report was made to a former leaser. Frank Jeroux took a number of assays, the highest being a picked sample of \$150 in sulphide, spoken of in No. 24 above. The shafts to 40 ft. are filled with water. Small hoist on property (home made.)
30. Remarks
31. If property for sale: Price, terms and address to negotiate. I will lease, sell outright for a small amount of money, or take part holdings with anyone willing to operate.
For information write Mr. Verne Olney, Box 290, Prescott, Arizona
32. Signed.....A. R. Van Wuke.....

Gold & Silver

15. Production Rate

16. Mill: Type & Cap.

17. Power: Amt. & Type

19. Operations: Planned

20. Number Claims, Title, etc.

Three unpatented claims

21. Description: Topography & Geography

Rugged Mountain Country
Jerome Range of Mountains(?)

22. Mine Workings: Amt. & Condition

Three shafts - one caved in - two open -
water level ~~at~~ 60 ft. No. 1 Shaft - Depth 60 feet
No. 2 Shaft 75 ft.
No. 3 Shaft 50 ft.

Type - (all shafts inclined)

23. Geology & Mineralization

The ore is oxide - 10 ft - Sulphide starts from there - vein - a true fissure - Hanging wall - porphyry - Foot wall - Diorite - vein - Quartz & Surface Ore - Oxide and Sulphide

24. Ore: Positive & Probable, Ore Dumps, Tailings

At a depth of 60 feet - in Shaft No 1, ledge matter - 10 ft - Shaft No. 2 - ledge 4 to 6 ft - Shaft No 3. depth of 40 ft - ledge 4 ft - Assays of ore in Shaft No 1 - from 150'. The 150' is a picked sample of sulphide at a depth of 150'.

24A. Dimensions and Value of Ore body

Ore runs at a depth of 60 ft. to my best ledge - and from wall to wall 4 to 10 ft.

25. Mine, Mill Equipment & Flow-Sheet

26. Road Conditions, Route

It is one mile north of state road - Can be reached with car - Turn off highway at Cherry Wash - it is near the Kate Allen Orchard - Travel 1/2 mile north to top of fence, 1/4 mile easterly then northerly to the mine as far as it goes, which is where property is located - Berne Olney Box 290 Prescott, Arizona will give fuller directions if desired.

27. Water Supply

Sufficient water can be developed at mine for mill operation - Domestic Water is Available

28. Brief History

Whatever development work that was done I did a small way not having sufficient funds - I leased to party, and they did work until funds depleted -

29. Special Problems, Reports Filed

The Report made by Frank Jeroux, Assayer of the and mining engineer of Mayer Ariz. states - The property is worthy of development - That work was made to a former leader - Frank Jeroux - took number of assays - the highest being - a picked sample of 150' in Sulphide - Spoken of in No. 24 (above)

30. Remarks

The shafts to 40 feet are filled with water - all work on property (Home made)

31. If property for sale: Price, terms and address to negotiate.

will lease, sell outright for a small amount of money - take part holdings with anyone willing to operate

32. Signature

A. R. Van Wyke

24 April 1941

Mr. A. R. Van Wyke,
25 Gurney Street,
East Providence, R. I.

My dear Mr. Van Wyke:

Replying to your letter of recent date,
I beg to advise that we have a report filed on your
CHERRY KING MINE, and I shall be very glad to refer
anyone to you making inquiry for a property such as
yours.

Assuring you of my desire to be helpful,
and trusting that we will have an opportunity to
send a buyer to you, I am

Yours very truly,

J. S. Coupal
Director

JSC-jrf

25 Gurney St.
East Prov. R.I.
Dept. Mineral Resources
Phoenix Ariz

Dear Sirs:

My mining claims are
listed there for "lease", "sell"
or "option" in any way.

Now, my assessment work
is due, and as I am not
there to take care of it -
was wondering if you know
of anyone who can take the
claims off my hands -

I am in ill health and
in need of money badly, so
no reasonable offer would be
refused.

Thanking you for an
immediate reply,

Yours very truly yours

A. R. Van Wyke
25 Gurney St.
East Providence, R. I.

Dec. 25-40

Mr. J. S. Coupal
Dear Sir:-

I wrote Mr. Bill
Broadgate in reference to
my mine in Cherry Ariz.
and he referred my letter to
you, also suggested that
I write to you -

Now - my proposition
is this - There is no way
of getting or developing
ore on the property only
by sinking a shaft - and
as I have not got suff-
icient funds to work it -
I am willing to stake (if
it can be so arranged)

\$1950⁰⁰ Nineteen Hundred and
Fifty Dollars - which will
enable me to buy an
interest in the place where
I am now employed -
which will net me - a
fair income - If any
arrangements could be
made - kindly place all
Commissions and Costs
above that amount of
money.

Secondly I will lease
10% Royalty -

And Thirdly - For
any absolutely responsible
party I will accept a
part holding the balance
to go to the operator

for the development and
operation of property -

In Shaft No. 1 - I speak
of - the ore showed to the
surface and at a depth
of 60 feet - developed into
10 ft. of ledge matter
between walls -

That shaft - I am in -
formed is caved now -
It had ore ranging
from 8 to 35 - all the way
down which I shipped
to smelter. It netted me
\$12. per ton -

The facts are - It is
a mill proposition -

Hoping it will be
possible for you to
arrange some kind
of deal in the near
future and thanking
you for forwarding the
application. I am
Very truly yours

A. R. Van Wyke
20 Hull St
East Providence
Rhode Island.

P.S. If any further inform-
ation is desired of the
property - please write
or see Mr. Verne Olney
Box 290 - Prescott, Ariz.
and he will gladly give

full information and
no doubt give you
drawings and details
that I am not ~~not~~
qualified in doing -

Mr. Olney worked
with me on the property
so really has a better
knowledge ^{is} technical ^{better}
qualified to explain
details than I am.

Thanking you
again
A. P. Van Wyke -

P.S. We will gladly answer
questions ~~myself~~ if it is
at all possible to do so -
